Summary

"Hi, I am a front-end developer with a passion for innovative and user-friendly web applications. I am skilled in problem-solving, debugging, and attention to detail. I am committed to staying up-to-date with the latest industry trends and best practices. I have experience in React JS and JS, and I approach every project with enthusiasm and determination. I am seeking a team that values creativity, collaboration, and excellence."

Experience

Store Manager

Woodmere Party Store

Jul 1999 - Jan 2022 (22 years 7 months)

"As a store manager, I was responsible for overseeing the day-to-day operations of the store, including managing inventory, finances, tobacco, liquor (MLCC), and the state lottery. I ensured that the store complied with all legal and regulatory requirements, and served a diverse community, experiencing its vibrant culture."

Cryptocurrency GPU Miner

Self-employed

Jan 2020 - Sep 2022 (2 years 9 months)

"As a cryptocurrency GPU miner, I have developed expertise in computer components, hardware, and software through the mining process. I have experience in experimenting with different PC builds and configurations, and I am knowledgeable in hardware and operating systems to optimize mining performance. I am proficient in troubleshooting cooling, benchmarking, and power consumption issues, and skilled in configuring software and OS/Linux-based systems for maximum mining efficiency. Through mining Ethereum, I have developed valuable technical skills."

Education

Studioweb.com

Self Taught, Front end Software Development / Frameworks / Utility Tools / API'S

2022 - Present

"I am currently pursuing self-taught education in front-end software development, frameworks, utility tools, and APIs. I have experience in HTML, CSS, JavaScript, front-end frameworks like React, and utility tools like Bootstrap and Tailwind CSS for designing UI/UX components. Additionally, I have gained knowledge in API design and development, fetch API, Git, and version control."
